Hamza Younus

Full Stack Developer · Founder & CEO, Hamzaif Technologies

Building real, end-to-end products — from AI companions to enterprise systems — for real businesses.

PROFILE SUMMARY

Self-taught Full Stack Developer from Gujrat, Pakistan with 3+ years of hands-on experience designing and shipping real, end-to-end products — from AI-powered assistants to enterprise asset-management and POS systems. Founder & CEO of **Hamzaif Technologies**, an FBR-registered software house delivering custom software, IT services and e-commerce solutions. Full-stack certified through NETSTECH Software Solutions, and currently exploring AI agents & automation with n8n and Python.

BUSINESS

Founder & CEO — Hamzaif Technologies

Aug 2026 — Present

FBR-registered software house (Reg. No. 3440399534141) based in Gujrat, Pakistan. Deliver custom software of every kind, IT services, IT hardware asset solutions, and Shopify store / e-commerce builds — owning projects end to end from client brief to deployment.

EXPERIENCE

Full Stack Developer — NETSTECH Software Solutions (Pvt.) Ltd.

Jun 2026 — Aug 2026

- Completed a Full Stack Developer internship, delivering real client projects across Android, web and backend systems in a professional software house environment.
- Worked across the stack with HTML, JavaScript, Node.js, React, Python, PHP, MySQL and Android.

Independent Full-Stack Developer & UI/UX Designer — Self-Taught

3+ Years

- Designed and built full products end-to-end — from POS systems to internal communication platforms — as a self-taught developer and designer.
- Delivered frontend (React, Next.js), backend (Node.js, PHP, REST APIs) and UI/UX (Figma) work for real client products.

SELECTED PROJECTS

Focussee — Android Habit Tracker

Kotlin · Jetpack Compose

Full-featured productivity & habit companion — built and shipped solo in ~5 days. Streaks & 60+ badges, Namaz tracker with Azaan alarms, Pomodoro timer, sleep/water logging, journal, and friend challenges with a leaderboard.

Jarvis AI Assistant

AI / Automation

An AI assistant that controls a PC, converses naturally, and performs tasks entirely through voice commands.

Servis Assets

Full-Stack Web

A unique enterprise assets-management system for tracking and servicing business assets end to end.

Medical Booking System

Full-Stack Web

An online hospital reception & appointment-booking platform for scheduling patient visits.

Hamza AI Assistant

AI / Voice

A voice-driven AI assistant built for data analysis, research, presentations and productivity.
